SONICLEAR

BEARING EDGE

The **SONIClear™ Bearing Edge** is standard on all Mars shells and allows the drumhead to sit flatter and make better contact with the shell. The result is a stronger and deeper fundamental pitch, effortless and consistent tuning, and a significantly expanded tuning range.

PREMIUM

FEATURES

Mars Series drums include a number of premium features that will provide pro-level performance to players looking for an affordable but gig-worthy kit.

Straight from the Saturn Series, the **SONIClear™ Suspension System** on the rack toms increases overall resonance by preserving vibration in the drumheads and shell and preventing energy transfer to the hardware.

The **Insulated Bass Drum Claws** include rubber gaskets that protect the hoop from damage and prevent rattling or buzzing during periods of extended play.

The **100% Birch 6-Ply Shells** are focused and allow the drums to speak quickly and project clearly. Rack toms have a punchy brightness while the lower frequencies of the bass drum and floor toms are supported with enhanced fundamental and body.

The **Matching Snare Drum** gives a unified look to the set while providing a solid fundamental crack. Its 14" x 6.5" size provides great tuning and musical versatility.

Bass Drum Mounted Tom Holders are standard with Mars Series 529 shell packs. A **Single Tom Arm and Clamp** for mounting the rack tom from a cymbal stand are standard on the 446 and 528 shell packs.

CONFIGURATIONS

What's Your Setup?

Mars series is created for drummers to explore every possibility on the journey of playing drums. The variety of configurations fits each player's demand for a wide range of musical applications. These instruments release unlimited potential and allow the player to discover their own musical sound.

529 Rock Shell Pack

The Mars Series "Rock" Shell Pack features sizes that can span a wide range of playing styles. This configuration offers a blend of power and versatility well-suited for the drummer needing a portable, great sounding kit.

*Component Drums Available.

528 Crossover Shell Pack

The Mars Series "Crossover" Shell Pack features a 1 up and 2 down configuration that is ideal for players who want a powerful rock sound with a single rack tom and closer positioning of the ride cymbal.

*Component Drums Available.

446 Rock 24 Shell Pack

The Mars Series "Rock 24" Shell Pack features a 1 up and 1 down tom set-up that keeps all the toms within easy reach while the 24" bass drum produces a powerful, yet naturally equalized tone.

*Component Drums Available.

486 Bebop Shell Pack

Easy and quick setup, great choice for small stage without sacrificing the sound, highly portable.

*Component Drums Available.

DRAGONWOOD

Dark green color glittering with golden halo.

(Featured Configuration: MA529SFKW)
